Rooftop Paver Layout Service

WE CAN HELP WITH YOUR PROJECT

During the bid phase of a project, Westile can provide a rough component count based on square footage. This will include paver counts and pedestal counts. Once the project is awarded, a detailed layout (example 1) can be created showing more precise pedestal counts, heights and locations. This detailed layout takes approximately 5-7 business days to complete.

To create the detailed layout, the following information must be provided:

1. **Paver type and size to be installed** (i.e. Concrete, Wood or Porcelain; i.e. 24” x 24”)

2. **Deck plan showing area** (example 2)

3. **Section detail** (example 3)

4. **Slope and drain locations** (example 4)

5. **Starting / threshold height** (example 5)
